

BIODEGRADABLE & COMPOSTABLE

Environmentally sustainable, commercially viable

Our products are a sustainable alternative to traditional plastic at an accessible cost. Our materials are 100% certified compostable, releasing valuable nitrates back into the soil within 180 days.

Made with natural resin derived from plant and corn starch, all products meet BPI, ASTM D6400, En13432, As4736, AS5810 Standard for compostable plastics
